

# Louisiana Vegetable Planting Guide

Producing vegetables is a favorite pastime for many people. Homegrown vegetables have better flavor because they are harvested closer to their peak ripeness, which enables the production of more of their natural sugars. Plus, there is complete joy in watching a small seed develop into a delicious treat!

Gardening provides a means of exercise, recreation and therapy, as well as opportunities for many to experience nature. Statements such as "Let me show you my garden" or "I grew that" give a sense of self-satisfaction worth way more than any monetary value.

Home vegetable gardens range in size from a single potted tomato plant to large gardens. Make your garden the size that will meet your needs without becoming a burden.

Plan ahead. Locate the garden in a sunny area. Six to eight hours of sunlight each day is preferred. The fruit-bearing crops, such as tomatoes, peppers and squash, need full sunlight for best production. Otherwise, too much shade results in very little production for those crops. If you only have shady spots to garden in, however, leafy vegetables such as lettuce, broccoli, cabbage and others will tolerate more shade than the root or fruit-bearing crops.

In Louisiana, vegetables can be planted year-round. As soon as one crop finishes bearing, pull it out, rework the row(s) and plant something else. For example, after harvesting Irish potatoes in May or June, rework the area and plant peas, okra or sweet potatoes. Successive plantings made a week or two apart provide a continuous fresh supply of certain vegetables such as bush snap beans, peas or greens. Also, planting early, midseason and late-maturing varieties at the same time will extend your harvest. Of course, some of these practices will be limited by available space.

This publication should be used as a guide to a successful Louisiana garden. The information was developed after considerable research and practical experience. The comments about each item in the following tables may help you better understand the cultivation requirements of vegetables.

**Planting Dates** – For spring planting, gardeners in Louisiana's southernmost parishes may use the earliest dates given for their first plantings. Gardeners in central Louisiana should plant about two weeks later than the earliest dates given, and those in north Louisiana about four weeks later. For example, snap beans may be planted on Feb. 15 in New Orleans but around March 1 in Alexandria and about March 15 in the Shreveport or Monroe areas. Generally, with the spring vegetables, the first planting should be made after the danger of frost is over (March 15 for south Louisiana).

**Seeds/Plants per 100 Feet of Row** – The amount of seeds (or the number of plants) given is the minimum amount required to plant a 100-foot row.

**Depth to Plant Seeds** – This will depend on the seed size and soil type. Small-seeded crops are planted

shallower, and crops with larger seeds are planted deeper. Heavy (clay) soils require a more shallow depth of planting than do lighter (sandy) soils. If irrigation water is not available and the soil is dry, your seeds may have to be planted a little deeper than normal. Generally speaking, most seeds should be planted two to three times as deep as they are wide.

**Space Between Plants** – Correct spacing between and within rows is important to allow for proper growth, cultivation and efficient use of space. Planting too closely will result in poor, weak growth and lower yields. It is a common practice to sow seeds thickly and then thin to the proper spacing. Allow for unplanted rows between watermelon, pumpkin and cantaloupe plantings. In the home garden, you can plant on every other row and space these plants 4-6 feet apart.

For intensive culture or "wide row" gardening, use the larger "in row" spacing and allow enough room between rows so that when the plants are mature they will barely be touching those in the neighboring row. Remember that yield, quality and pest control normally will be superior if plants are given plenty of room to grow.

**Days Until Harvest** – The number of days from planting until harvest depends on the variety selected, the seasonal temperatures, seasonal rainfall, cultural practices and whether the crop was direct-seeded or transplanted. The number of days indicated in these charts are average ranges that can be expected.

For the gardener who is interested in the detailed culture of a certain crop, gardening hints for these crops are available from your parish's LSU AgCenter Extension Service office.

Cultural Recommendations									
Crop	Planting Dates (Month/Day)		Seeds/Plants per	Depth To Plant	Space Between	Days Until			
	Spring	Fall	100 Feet of Row	Seeds	Plants	Harvest			
Beans, Snap, Bush	2/15-5/15	8/10-9/10	1/2 pound	1/2 inch	2-3 inches	48-55			
Beans, Snap, Pole	2/15-5/15	8/10-8/31	2 ounces	1/2 inch	12 inches	60-66			
Beans, Lima, Bush	3/1-5/30	8/1-9/1	1/2 pound	1/2 inch	3-4 inches	60-67			
Beans, Lima, Pole	3/1-5/30	8/1-9/1	1/4 pound	1/2 inch	12 inches	77-90			
Beets	1/15-2/28	8/15 -10/1	3/4 ounce	1/4 inch	2-4 inches	55-60			
Broccoli	1/1-2/15	8/15-10/15	1/32 ounce	1/8 inch	18-24 inches	70-90*			
Brussels Sprouts		8/15-10/15	1/32 ounce	1/8 inch	12-15 inches	90*			
Cabbage	10/1-1/30	8/15-10/15	1/32 ounce	1/8 inch	12-15 inches	65-75*			
Cabbage, Chinese	1/15-2/15	7/15-10/1	1/32 ounce	1/4 inch	12 inches	60-80*			
Cantaloupes	3/1-	-8/1	1/8 ounce	1/4 inch	18-24 inches	80-85			
Carrots	1/15-2/15	9/1 -11/1	1/4 ounce 1/8 inch		1-2 inches	70-75			
Cauliflower	1/15-2/15	7/1-10/15	1/16 ounce 1/8 inch		18-24 inches	55-65*			
Celery (Seed)		10/1 -11/1	1/64 ounce 1/8 inch		6-8 inches	210			
Chard, Swiss	1/15-5/1	8/15-10/30	1/2 ounce	1/4 inch	6-8 inches	45-55			
Collard	3/15	-10/1	1/16 ounce	1/8 inch	6-12 inches	75			
Corn, Sweet	2/15-5/15		3 ounces	1/2 inch	10-12 inches	69-92			
Cucumbers		3/1-9/1	1/4 ounce	1/4 inch	12-18 inches	50-65			
Eggplants (Seeds)	1/15-6/1		1/32 ounce	1/8 inch		140			
Eggplants (Plants)	3/15-7/1		50-60 plants		18-24 inches	80-85*			
Garlic		10/1 -11/30	2 pounds	1 inch	4-6 inches	210			
Kohlrabi	1/1-3/30	8/15-10/30	1/16 ounce	1/8 inch	6	55-75			
Lettuce	1/1-1/31	8/15-9/30	1/32 ounce	1/8 inch	4-12 inches	45-80			
Mustard Greens	8/1-3/15		1/8 ounce	1/8 inch	1-2 inches	35-50			
Okra	3/1-8/1		1/2 ounce	1/2 inch	12 inches	60			
Onions, Leek (Seeds)		9/20-10/15	1/8 ounce	1/8 inch	2-4 inches	135-210			
Onions, Leek (Sets)	12/15-1/30		300-600 plants	1 inch	2-4 inches	120-150			
Peanuts	4/1-6/15		1/2 pound 1 inch		4-8 inches	110-120			
Peas, English	12/15-1/31	9/1-9/15	2-4 ounces	1/2 inch	2-3 inches	60-70			
Peas, Southern	3/1-	8/10	4-6 ounces	1/2 inch	4-6 inches	70-80			
Peppers, Hot (Seeds)	1/15-5/1		1/16 ounce	1/8 inch		140			
Peppers, Hot (Plants)	3/15-6/15		66-100 plants		12-18 inches	70*			

Cultural Recommendations									
Crop	Planting Dates (Month/Day)		Seeds/Plants per	Depth To Plant	Space Between	Days Until			
	Spring	Fall	100 Feet of Row	Seeds	Plants	Harvest			
Peppers, Bell (Seeds)	1/15-2/28	6/5-7/5	1/16 ounce	1/8 inch		140-150			
Peppers, Bell (Plants)	3/15-5/15	7/15-8/15	66-80 plants		15-18 inches	70-80*			
Potatoes, Irish	1/20-2/28	/28 8/15-9/10 10-12 pounds		4 inches	12 inches	90-120			
Potatoes, Sweet	4/10-7/1		100 plants	100 plants		90-120*			
Pumpkins		3/15-9/15	1/2 ounce	1/2 inch	36-60 inches	90-120			
Radishes	1/15-3/31	9/1 -11/1	1 ounce	1/8 inch	1 inches	22-28			
Rutabagas		7/1-8/31	1/16 ounce	1/8 inch	4-8 inches	88			
Shallots	7/1-2/28		200-300 plants	1 inch	4-8 inches	50			
Spinach	10/1-2/28		1/4 ounce	1/8 inch	3-6 inches	35-45			
Squash, Summer	3/1-8/15		1/2 ounce	1/8 inch	36 inches	50-90			
Tomatoes (Seeds)	1/1-3/15	6/1-7/1	1/64 ounce	1/8 inch		100-115

Turnips		8/1-2/28	1/8 ounce	1/8 inch	2-6 inches	40-50			
Watermelons	3/15-8/1	i-8/1 1/4 ounce 1/2 inch 48 inches		90-110					
*Days from transplanting									

F	Recommended Varieties for Louisiana					
Beans, Lima (Bush)	Dixie Butterpea , Fordhook 242 (AAS), Henderson Bush, Jackson Wonder, Thorogreen (DM)					
Beans, Lima (Pole)	Florida Speckled, King of Garden					
Beans, Snap (Bush)	Blue Lake 274, Bronco, Contender (PM), Derby (AAS), Festina, Lynx, Magnum, Provider (DM, PM), Roma II, Royal Burgundy, Strike, Valentino					
Beans, Snap (Pole)	Blue Lake, Kentucky Blue (AAS), Kentucky Wonder 191, McCaslin, Rattlesnake (striped), Yardlong Asparagus Bean					
Beets	Detroit Dark Red (DM), Kestrel (CLS, DM, PM) , Red Ace (CLS), Ruby Queen					
Broccoli	Arcadia (DM), Diplomat (DM), Gypsy (DM), Packman, Premium Crop (AAS, DM), Windsor (DM), GreenMagic; Everest					
Brussels Sprouts	Jade Cross E, Long Island Improved (OP), Royal Marvel					
	Early maturing: Blue Vantage, Platinum Dynasty, Stonehead					
Cabbage	Later maturing: Cheers, Blue Dynasty, Dynasty, Emblem, Red Vantage, Rio Verde, Royal Vantage, Silver Dynasty					
	Savoy type: King (AAS)					
Cantalounos	Ambrosia (DM, PM), Aphrodite (PM), Athena (PM), Primo (DM, PM), Vienna					
Cantaloupes	Honeydew: Earli-dew (PM), Honey Brew (DM, PM), Lambkin AAS, Passport (ANT), Temptation					
Comunity	Danvers 126, Purple Haze (AAS), Thumbelina					
Carrots	Deep soils: Apache, Enterprise, Maverick, Navajo.					
Cauliflower	Candid Charm, Cumberland, Freedom Snow Crown, Incline, Majestic, Wentworth					
Collard Greens	Champion, Flash, Georgia (Creole), Top Bunch, Vates					
	Sweet: Gold Queen, Merit, Seneca Horizon (BC), Silver Queen					
Corn, Sweet	Supersweet: Golden Queen, Honey 'N Pearl (AAS) (BC)					
com, sweet	Sugar Enhanced (SE): Ambrosia, Avalon, Bodacious, Delectable, Honey Select (AAS), Incredible, Lancelot (BC), Miracle, Precious Gem (BC), White Out					
Cucumbers	Slicers: Dasher II (ANT, DM), Diva (AAS, PM, DM), Fanfare (AAS, ANT, DM, PM), General Lee (DM, PM), Intimidator (ANT, DM, PM), Indy (ANT, DM, PM), Olympian (ANT, DM, PM), Poinsett 76 (ANT, DM, PM), Rockingham (ANT, PM), Speedway (ANT, PM, DM), Talladega (ANT, DM, PM), Thunder (ANT, DM, PM), Salad Bush (AAS, PM), Sweet Slice (ANT, DM, PM), Sweet Success (AAS)					
	Pickler: Calypso (DM, PM)					
Eggplants	Black Beauty, Calliope, Classic, Dusky, Epic, Fairy Tale (AAS), Ichiban, Night Shadow, Santana					
C II	Creole, Italian					
Garlic	Large: Elephant, Tahiti					
Kohlrabi	Early Purple Vienna, Early White Vienna, Winner					
	Romaine: Cimarron Red, Cuore (DM), Flashy Trout back, Green Towers, Parris Island Cos, Red Eye, Tall Guzmaine Elite					
Lettuce	Leaf: New Red Fire MI (DM), Red Salad Bowl, Nevada (DM), Sierra, Red Sails, Salad Bowl, Tango, Grand Rapid					
	Head: Buttercrunch, Esmeralda (DM), Great Lakes, Ithaca					
Mustard Greens	Florida Broadleaf, Greenwave, Red Giant, Southern Giant Curled, Savannah, Tendergreen					
Okra	Annie Oakley, Cajun Delight (AAS), Clemson Spineless, Cow's Horn, Burgundy (AAS), Emerald, Lee, North and South					
Onions	Red: Red Creole (not sweet), Southern Belle					
	White: Candy, Savannah Sweet					
	Yellow: Granex 33, Grano 502, Texas Grano 1015 Y					
Peas, English/ Garden	Mr. Big (AAS, PM), Novella II (PM), Oregon Sugar Pod (PM), Sugar Ann (AAS, PM), Sugar Snap (AAS, PM)					

F	Recommended Varieties for Louisiana
	Blackeye: Queen Anne, California No. 5
Peas, Southern (Cowpea)	Pinkeye: Pinkeye Purple Hull, QuickPick
	Cream: Elite, Mississippi Cream, Texas No. 8, Top Pick Cream
	Crowder: Colossus (CLS), Dixie Lee, Hercules, Knuckle Purple, Mississippi Purple (N), Mississippi Shipper, Mississippi Silver (N), Top Pick, Zipper Cream
Peppers, Sweet/ Mild (Bell)	Bell: Aristotle X3R (BLS), Blushing Beauty (AAS), Camelot X3R, Capistrano (OP), Excursion II, Heritage, Jupiter (OP), King Arthur (BLS), Lilac, Plato, Purple Beauty, Golden Summer, Tequila, Valencia
	Frying Type: Biscayne, Carmen (AAS), Cubanelle, Gypsy (AAS), Tiburon Ancho
Peppers, Hot	Ancho 101, Cayenne, Chilly Chili (AAS), El Rey (BLS), Grande, Habanero, Hungarian Wax, Inferno, Jalapeno M, Long Thin Tula, Mariachi (AAS), Mitla, Red Thick Cayenne, Serrano, Super Cayenne (N, BLS), Tabasco
Potatoes, Irish	Red Skin: Norland, Red LaSoda (EB), Red Pontiac
Totatoes, mism	White Skin: Norchip, Kennebec, Yukon Gold
Potatoes, Sweet	Beauregard, Bienville, Centennial, Hernandez
Pumpkins	Atlantic Giant, Autumn Gold (AAS), Baby Bear (AAS), Baby Boo, Big Max, Big Moon, Cinderella, Gold Medal, Gold Rush (AAS), Gooligan, Jack-Be-Little (AAS), Orange Smoothie (AAS), Prankster (PM), Silver Moon (PM), Small Sugar, Sorcerer (AAS), Spirit (AAS)
Shallots	Green: Evergreen
Shahots	Bulbs: Matador, Prisma
Spinach	Bloomsdale L.S., Melody (AAS, DM), Tyee (DM), Unipak 151 (DM)
Spirideri	Smooth: Ballet, Tiger Cat
	Zucchini: Cash Flow, Declaration II, Gold Rush (AAS), Justice III (PM), Payroll (PM), Senator, Spineless Beauty, Tigress
Squash, Summer	Straightneck: Enterprise (PM), Liberator III, Multipik, Patriot II (PM)
	Crookneck: Destiny III, Dixie, Gentry, Medallion, Prelude II (PM)
	Scalloped: Patty Green, Peter Pan, Sunburst
Squash, Winter	Bush Delicata (PM), Cream of Crop, Golden Hubbard (OP), Honey Bear (PM), La Estrella, Sweet Mama, Sunshine, Table Ace, Table Queen, Tivoli Spaghetti, Ultra, Vegetable Spaghetti, Waltham Butternut
	Indeterminate: Better Boy (N), Big Beef (AAS, N), Champion (N), Jet Star, Pink Girl, Sun Gold, Terrific (N)
Tomatoes	Determinate: Bella Rosa (TSWV), BHN 981 and BHN 876, Carolina Gold, Celebrity (AAS, N), Crista (N, TSWV), Floralina (TSWV), Mountain Fresh Plus (N), Mountain Spring
Tomatoes	Heat Tolerant: Florida 91, Heatwave II, Phoenix, Solar Set, Sun Leaper, Sun Master, Solar Fire, Talladega (TSWV)
	Others: Cupid (SPECK, TSWV), Juliet (AAS, EB, LB), Muriel Roma (N, SPECK, TSWV), Picus Roma (TSWV), Small Fry (AAS, N), Sweet Million, Sun Gold Cherry
Turnips	Just Right (AAS), Purple Top Shogoin, Tokyo Cross (AAS), White Lady
титпрз	Greens: Alamo, Seven Top
Watermelons	Crimson Sweet (OP), Jubilee II (OP), Juliette, La Sweet (OP), Patriot, Regency, Royal Jubilee, Royal Star, Royal Sweet, Sangria, Starbrite, Stars 'N Stripes, Summer Flavor 710 or 720
	Seedless: Cooperstown (ANT), Gypsy (ANT), Imagination, Krispy Krunch, Liberty, Matrix (ANT), Millennium (ANT), Millionaire (ANT), Revolution
	Ice Box Type: Mickeylee (ANT), Sugarbaby, Vanessa
	Yellow: Amarillo, Buttercup, Desert King, Gold Strike, Tendergold (ANT), Tendersweet
N=Nematode Resist	ant; AAS=All America Selection; OP=Open Pollinated; BC=Bicolor
	ANT=Anthracnose; BLS=Bacterial Leaf Spot; CLS=Cercospora Leaf Spot; DM = Downy Mildew; =Late Blight; PM=Powdery Mildew; SPECK=Bacterial Speck; TSWV=Tomato Spotted Wilt Virus

General Fertilizer Recommendations							
Crops	Fertilizer or Equivalent per 100 Feet of Row or per 300 Square Feet	Side-dress*					
Beans (Snap, Lima or Butter), Peas	2-3 pounds 8-24-24						
beans (Shap, Lima of Butter), Feas	or 2-5 pounds 8-8-8						
Beets, Carrots, Radishes, Turnips, Rutabagas,	6-7 pounds 8-8-8	Three to four weeks after planting					
Kohlrabi	or 4-5 pounds 8-24-24	Timee to four weeks after planting					
Cabbage, Collards, Broccoli, Brussels Sprouts,	5-6 pounds 8-8-8	Three to four weeks after transplanting and again in two to					
Cauliflower	or 3-4 pounds 8-24-24	three weeks.					
Cantaloupes, Watermelons, Honeydews	5-6 pounds 8-8-8	Once when vines begin to run					
Cantaloupes, watermelons, Honeydews	or 3-4 pounds 8-24-24	Once when whes begin to run					
Celery	6-7 pounds 8-8-8	Once after frost danger has passed					
Celery	or 5 pounds 8-24-24	and again in three to four weeks.					
Corn (Sweet)	6-7 pounds 8-8-8	At 1 foot and 3 feet tall					
Com (sweet)	or 4-5 pounds 8-24-24	At 1 loot and 3 leet tall					
Tomatoes	4-5 pounds 8-24-24	At first fruit set and every three to					
Torridoes	or 6-8 pounds 8-8-8	four weeks thereafter					
Lettuce, Endive, Escarole, Romaine, Fennel	4-5 pounds 8-24-24	Three to four weeks after					
(double for head lettuce)	or 6-7 pounds 8-8-8	transplanting					
Onions, Garlic, Shallots	4-5 pounds 8-8-8	Four to six weeks after transplanting;					
Officials, Garrie, Strailots	or 3-4 pounds 8-24-24	-bulb onions and garlic in March as bulbs begin to swell					
Mustand Croops Davidou Spinosh	4-5 pounds 8-24-24	Thurs to form weeks often planting					
Mustard Greens, Parsley, Spinach	or 6-7 pounds 8-8-8	Three to four weeks after planting					
Olive	2-3 pounds 8-24-24	After first pod set and every four to					
Okra	or 3-4 pounds 8-8-8	six weeks thereafter					
Donnors Eggnlants	4-5 pounds 8-24-24	At first fruit sat					
Peppers, Eggplants	or 5-6 pounds 8-8-8	- At first fruit set					
Potatoos (Irish)	6-8 pounds 8-8-8	After plants are 6 10 inches tall					
Potatoes (Irish)	or 5-6 pounds 8-24-24	After plants are 6-10 inches tall					
Potatoes (Sweet)	3-4 pounds 8-24-24						
rotatoes (sweet)	or 4-5 pounds 8-8-8						
Squash, Cucumbers, Pumpkins	3-5 pounds 8-24-24	As plants begin to run and again in					
Squasii, Cucumbers, rumpkins	or 4-6 pounds 8-8-8	three to four weeks					

Note: One quart of fertilizer weighs about 2 pounds. First analysis listed is the preferred blend.

General fertilizer recommendations are based on soils of average fertility that have no imbalances of major soil nutrients. A soil analysis will determine if certain soil nutrients are exceptionally high or low. Most garden vegetables need a soil pH (acidity) between 6 and 7. Lime should not be applied without first completing a soil analysis that shows the need for lime. You should have your soil tested at least every three years!

It should be understood that the numbers (analysis) on a bag of fertilizer represent the percentages of nitrogen, phosphate and potash. For example, a 100-pound

bag of 8-8-8 fertilizer contains 8 percent or 8 pounds of nitrogen (N), 8 percent or 8 pounds of phosphate ( $P_2O_5$ ) and 8 percent or 8 pounds of potash ( $K_2O$ ). Fertilizers with different analyses can be substituted for those listed to provide approximately the same amount of plant food, but they will need to be applied at different rates. For example, 6 pounds of a 12-12-12 contains an equivalent amount of nitrogen, phosphate and potash as 9 pounds of 8-8-8, since it contains approximately one-third more plant food (36 pounds per 100-pound bag of 12-12-12 compared to 24 pounds per 100-pound bag of 8-8-8).

<sup>\*</sup>For 100 feet of row or 300 square feet, apply 2 pounds calcium nitrate or 1 pound ammonium sulfate. (If neither calcium nitrate nor ammonium sulfate is available, 3 pounds of 8-8-8 may be substituted.)
